

IX Liceum Ogólnokształcące

im. Kazimierza Jagiellończyka
w Toruniu

My school – High School number 9 - is the place I want to talk about

Although it's not easy it can be quite hard

The things I enjoy are the games we play

my friends , lovely doughnuts, lots of places where we stay.

The library where the books can be found.

The classes where we sit in circles on the ground

The breaks which we spend with friends eating candy

Our little shop with a salesman called Andy

There are even more things about the school

which I have to admit are really cool

What I have written so far should make you think

This school has to be the greatest thing.
